# WHY CHOOSE NOTE?

2026

**NOTE** is a leading end-to-end manufacturing services partner, with an international platform, for manufacturing electronics-based products through sustainable production.

Our global manufacturing footprint includes NPI and industrialisation hubs in the UK, Europe and Asia. We offer a complete range of design, development, manufacturing, and aftermarket refurbishment solutions.

## Your Manufacturing Partner

We strive to be your manufacturing partner by delivering cutting-edge services at a competitive total cost. We listen and adapt to your needs and take pride in being your partner.

- Your success is our success
- We are an extension of you

... OUR  
COMPANY

2026

# Your partner of choice for end-to-end electronics manufacturing solutions

As a leading Contract Electronics Manufacturer, we build end-to-end manufacturing solutions around you, **turning product ideas into reality**. From inception our focus has been on our customers. We believe that their success is our success. By delivering as we promise, we continuously create trust and build mutually successful long-term relationships.

## United by a passion for customer service

We've grown in expertise, technology and size to what we are today: a team of over 300 highly trained and committed employees in Windsor, Haddenham, Basildon and now Kasdon Electronics in Wolverhampton, who all live by the same core values.

“At **NOTE**, we have found the quality of the work to be of a very high standard and any issues have been dealt with quickly and efficiently. We have had excellent support from the sales and customer services teams at **NOTE UK**.”

# CORE VALUES

2026

To succeed, we must all live our values:

**COMMITTED**

“We make it work.” We are solution oriented, driven and provide a stimulating working environment, internally and for our customers.

**FLEXIBLE**

We are always looking for the most cost-efficient way to satisfy customer demand, adjusting processes as required.

**SUSTAINABLE**

We take responsibility for people and the environment, endeavouring to help create a better society through sustainable manufacturing services.

**QUALITY FOCUSED**

“Get it right from the start”. There’s a quality focus in everything we do.

**PROACTIVE**

We communicate early to do business in a way that is professional, transparent and fair.

# COMMITMENT TO QUALITY & EXCELLENCE

2026

“At the core of our operations is an unwavering commitment to delivering excellence. The quality we provide is not just a benchmark but the foundation of the trust our customers place in us. Our standards and procedures, recognised and aligned with global regulations, are meticulously applied across all our facilities.”

*Neil Owen, Vice President, NOTE UK*

## NOTE creates competitiveness for customers by delivering the right quality at the right time and at the right price

To achieve this, we constantly develop and improve our processes and services with the aim of meeting the current demands and expectations of customers and their markets. Being the customer's manufacturing partner is a big responsibility, and something we take very seriously.

# GLOBAL LEVERAGE, LOCAL EXPERTISE

2026

## Turning product ideas into reality

**NOTE** Group's central resources are built on three key pillars. Central Sourcing, Group Financing and Group Operations. Together, these elements help support **NOTE UK** to deliver world-class, innovative solutions to meet the needs of our customers.

Central Sourcing is a fundamental pillar in our support for local manufacturing. The leveraging of our total Group spend across world-class supply partners, helps deliver customers competitive material pricing in the regions and markets they operate..

### Central Sourcing

- Strategic supplier contracts and audits
- Global pricing
- Supply chain expertise

### Group Financing

- Financial Management
- Budgeting
- Investor relations

### Group Operations

- Quality
- Development
- IT Management
- Technologies

# **WHAT WE DO**

**2026**

# We add value at every step of the supply chain

## DEVELOPMENT

**NOTE** provides early-stage engineering support with **test development**, **DfM**, and **product design** to enable scalability. We ensure compliance and a smooth transition to prototyping and volume manufacturing.

## PROTOTYPING

Speed is essential for product validation. **NOTE** delivers **fast-turn prototyping**, **NPI**, and **pre-production services**, enabling rapid design iterations, thorough testing, and a seamless transition from concept to full-scale production.

## SOURCING

**NOTE** ensures reliable supply through **local and global sourcing**, **IPO services**, and **material supply management** - delivering continuity, cost efficiency, reduced risk, and dependable operational performance for your production schedule.

## MANUFACTURING

**NOTE** delivers end-to-end electronics manufacturing solutions, covering **PCBA**, **box build**, **cable assemblies**, **full turnkey services**, **scalability**, **fulfilment**, and **3rd party logistics** - ensuring flexibility, quality, and efficiency from start to finish.

## AFTER-SALES & EOL

Dedicated to quality, **NOTE** provides reliable **after-sales services**, **product maintenance**, and **spare part support** every step of the way - ensuring smooth transitions, timely replacements, and proactive care for long-term performance.

# DESIGN FOR MANUFACTURING

2026

## QUALITY

- Follow qualified Development Process
- Product Design and Process FMEA
- Design Reviews
- Consider Design Guidelines

## ENVIRONMENT

- Follow Eco Design Rules
- RoHS & Reach
- WEEE, ISO 14001
- Compliance Management
- Smart Powering Concepts
- Increase recyclability

## COST

- Target Costing
- Total Supplier Management
- Component Lifecycle Management
- SiEx Tool
- Optimise process to reduce costs

## TEST

- Improve usability
- Test time reduction with automation
- System Level Test
- Board Level Test
- Built-In Self-Test
- Flying Probe Test
- Automated Optical Inspection
- Boundary Scan

## MANUFACTURING

- Simplify assembly by redesigning the product
- Process and production line optimisations with LEAN approach
- Valor Process Preparation Module
- Consider Design Guidelines

# MARKET SECTORS

2026

We recognise that each industry has its own characteristics and demands, but most customers are active in the **Industrial, Communication, MedTech, Greentech, and Security & Defence** sectors. **NOTE's** customer offering spans the complete product life cycle - from design and development to manufacturing, after-sales, and end-of-life support.

We have structured our business to meet the specific challenges of these key sectors while developing sustainable solutions for emerging technologies that align with our core market expertise. Our customer base consists of companies with high demands for quality, reliability, and innovation.

### INDUSTRIAL

One of **NOTE's** core segments since the company was founded. The segment's extensive and rapid progress necessitates leading-edge technical competence.

### COMMUNICATION

With high quality and flexibility, products are manufactured in segments like automation, control, infrastructure, energy and construction technology.

### MEDTECH

Medical technology products in diagnostics, treatment and X-ray are the foundation of this segment. Medtech has been part of **NOTE** for many years.

### GREENTECH

The Greentech sector focuses on technologies driving the green transition, with products that support sustainability - such as shifting from fossil fuels to renewables and optimising energy use.

### SECURITY & DEFENCE

This sector demands precision and compliance. **NOTE** delivers robust electronics manufacturing solutions with secure supply chains, advanced testing, and strict adherence to industry standards.

# WHAT OUR CUSTOMERS SAY

2026

”

“The level of support provided during the NPI process was incredible. Our engineers spent a great deal of time at **NOTE** Windsor, almost as if **NOTE** was our own shop floor. We could not have asked for more.”

*Chief Executive  
Officer*

”

“Of great appeal to us is **NOTE**'s approach to business. There's little if any of the red tape that so often prevents a traditional customer-CEM relationship from becoming as efficient and mutually beneficial as possible.

*Supply Chain  
Manager*

”

“Our partnership with **NOTE** brings us access to local and global support and enables close partnerships in the development phase as well as low cost, high quality production.”

*Managing  
Director*

# SUSTAINABILITY

2026

# To move forward, you have to give back

*NOTE has been a participant of the UN Global Compact since 2011*

## HUMAN RIGHTS

1. Businesses should support and respect the protection of internationally proclaimed human rights
2. Make sure that they are not complicit in human rights abuses.

## LABOUR

3. Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining
4. The elimination of all forms of forced and compulsory labour
5. The effective abolition of child labour
6. The elimination of discrimination in respect of employment and occupation.

## ENVIRONMENT

7. Businesses should support a precautionary approach to environmental challenges
8. Undertake initiatives to promote greater environmental responsibility
9. Encourage the development and diffusion of environmentally friendly technologies.

## ANTI CORRUPTION

10. Businesses should work against corruption in all its forms, including extortion and bribery.

## Sustainability goals

**100% carbon dioxide neutral production:** Our operations should, within the framework of scope 1-2 according to the Greenhouse Gas Protocol, be 100% carbon dioxide neutral. **Work environment certification:** all our sites should be work environment certified according to ISO 45001 and new sites to be implemented within 2 years. *NOTE's strengthened work in these areas means that customers are offered even more sustainable production.*
